## RoHS Declaration

(Directive 2011/65/EU)

The EU Directive entitled "Restriction on the use of certain Hazardous Substances (RoHS) 2002/95/EC", became effective the 1st of July 2006. This regulation restricts the use of six substances within electrical and electronic equipments. This directive was revised on June 2011 and now is included into Directive 2011/65/EU. The restricted substances still remain the same.

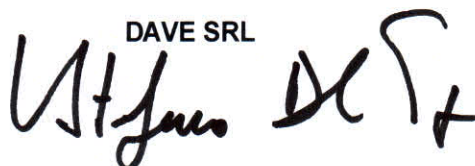

The substances subject to specified limits are:

| Material                                | Maximum Concentration in Homogenous Material |
|---|--|
| • Lead (Pb)                             | < 1,000 ppm                                  |
| • Mercury (Hg)                          | < 1,000 ppm                                  |
| • Cadmium (Cd)                          | < 100 ppm                                    |
| • Hexavalent chromium (Cr6+),           | < 1,000 ppm                                  |
| • Polybrominated biphenyls (PBB)        | < 1,000 ppm                                  |
| • Polybrominated diphenyl ethers (PBDE) | < 1,000 ppm                                  |

This document certifies that:

- DAVE Quality Management System is committed to comply with ever-changing the RoHS Directive 2011/65/EU .
- All DAVE products (Apart specified exceptions agreed with customers) are declared RoHS Compliant.
- Those DAVE products that have P/N with suffix "R" are RoHS compliant

Best Regards,

DAVE SRL  

Warning: this declaration is not valid for engineering samples, prototype and pre-serie products, but only for mass production products.
