

PRESS Release

DAVE Embedded Systems

DAVE Embedded Systems and Telerex are now partners to offer and support DAVE Embedded Systems' products to its Customers in Benelux.

Porcia, ITALY – November, 2016 - DAVE Embedded Systems, one of the European leading companies in the embedded market, announced its Business Partnership with Telerex, to offer and support products proposed by DAVE Embedded Systems.

DAVE Embedded Systems, headquartered in Porcia, Italy, has been in the embedded modules business since 1998 and has established itself as one of the leading European Companies for embedded solutions.

Telerex, helps its customers in making their products more competitive by providing them with the best fitting products. With over 45 years of experience as an importer and distributor of electronics solutions for manufacturers of equipment, machines, and complete applications, Telerex is much more than just another stop on your product's route from manufacturer to end user. Telerex supports its customers all through the process of acquiring, transporting, financing and integrating their products, providing tangible added value.

To guarantee the right support and satisfy our customers' requirements, building relationships is important for a company's long-term growth.

This partnership combines DAVE Embedded Systems' solutions, which enables customers to build quality products, with Telerex, power supply distributor, to further drive the adoption of embedded systems solutions in the Benelux..

The new partnership represents a further step in the company's ongoing strategy which aims to ensure customers a closer and better service and support.
